WIN-5057 US Consumer Commercial Blended Score (CCS)

Changes in this ticket is to enable new add on for D&B Standard Blended Score as passthrough APIs

The D&B Standard Blended Score predicts the likelihood that a business will pay its bills in a severely delinquent manner (90+ days past term), seek legal relief from creditors, or cease operations without paying all creditors in full over the next 12 months, based on the commercial information in D&B's files. A severely delinquent firm is defined as at least 10% of its dollars 90 days or more past due for at least 6 out of the last 12 months. It includes:

- Matching the business to D&B's file to include Commercial Payment Experiences, Public Filing, Demographic, and Financial information for the business
- Matching the business owner, cosigner, or individual to TransUnion's(TU) file to include Consumer Credit Attributes for the business principals when the user has a "permissible purpose" under the Fair Credit Reporting Act (FCRA) for making such an inquiry

Harnessing this power, D&B's Advanced Analytical Services group built a new score that gives users unprecedented power to underwrite new business for both large and small companies. Companies without commercial data or who do not match to the D&B database can still receive scores based on TU data only. It is available to D&B US Customers

Endpoint: https://tst.plus.dnb.com/v1/commercialconsumerblendedscore/dnbstandardscore

WIN-5070 US SBFE Consumer Commercial Blended Score

Changes in this ticket is to enable new add on for US SBFE Blended Score as passthrough APIs

The D&B SBFE Blended Score utilizes the combined power of D&B's and TransUnion's vast information databases on U.S.-based micro and small businesses and their business principals to predict serious delinquency (more than 90 days past due) on a small business lending obligation over the next 18 months. It includes:

- Matching the business to D&B's file to include Commercial Payment Experiences, Public Filing, Demographic, Small Business Financial Exchange (SBFE™), and Financial information for the business
- Matching the business owner, cosigner, or individual to TransUnion's(TU) file to include Consumer Credit Attributes for the business principals when the user has a "permissible purpose" under the Fair Credit Reporting Act (FCRA) for making such an inquiry

Harnessing this power, D&B's Advanced Analytical Services group built a new score that gives users unprecedented power to underwrite new business for both large and small companies. Companies without commercial data or who do not match to the D&B database can still receive scores based on TU data only. It is only available to D&B Customers who are SBFE Members

Endpoint: https://tst.plus.dnb.com/v1/commercialconsumerblendedscore/sbfescore
